2015-07-21 CGSync Meeting notes

Date

📅 21 Jul 2015 at 10:00

Attendees

- Thomas Cherry
- Christopher Gokey
- Chris Durbin

Questions

- GCMD
    - Using UUIDs instead of text for the KMS concepts so that we can get the latest metadata without needed to do bulk changes - need more talk
        - Science Keywords, Services Keywords, Platforms/Instruments, DataCenters/Responsible Organization, Locations, Projects
    - getting revisions - ⚠ CMR-1419 - JIRA project doesn't exist or you don't have permission to view it. - when is sprint 30 over?
        - working on now, wait one week
    - Who can we talk to about getting DIF 10.2 indexed (CMR requested changes for better spatial queries)
        - Jason, he's doing related work in August, talk to him about getting a new index after he is done to implement DIF 10.2
    - Can we get information on provider and submitter email in response
        - maybe not be supported to be in the search API, may need a curtain API - need more talk, will ask around
    - who is working on the additions to the search API for MMT, we are interested in
      ⚠ CMR-1417 - JIRA project doesn't exist or you don't have permission to view it. - may be coming up.
        - this may not help us solve the issue of discovering deleting records, continue to use the old echo API.
    - Additional Attributes is going to be added to the query language (CMR-1758) need a new ticket for group to be added.

GCMD plans:

- Spatial GUI
- Portal searches
- UI layout changes

Discussion Items

Time	Item	Who	Notes
			• GCMD demo http://sandbox-qa1.gsfc.nasa.gov/KeywordSearch3/KeywordSearchTest.html
			• spatial, highlighting, then temporal • highlighting is having some problems, filters don't support highlighting.

Action items

- ☐
